SUMMARY

Product Manager with 2 years of experience blending 0-to-1 product delivery with client & stakeholder management, shipping AI-powered tools while sustaining executive trust and B2B partnership growth.

EDUCATION

Bachelor of Technology, Computer Science and Engineering
Indian Institute of Technology, Guwahati - Guwahati, Assam

Nov 2020 – May 2024

PROFESSIONAL EXPERIENCE

Client & Partnership Lead – The Maverick Me Foundation
Calgary, Alberta

Mar 2026 – Sep 2026

- **Leading client relationship management and B2B partnership development** for leadership coaching and personal transformation practice. **Designing structured client lifecycle touchpoints (intake, follow-up, feedback)** and **driving corporate outreach** for the organization's executive coaching program(MEMS).

Product Owner – PCL

Oct 2024 – Feb 2026

Ahmedabad, Gujarat

- **Led** discovery-to-launch of an AI-powered reporting suite (Python, Flask), **cutting manual reporting time by 80%.**
- **Prioritized a natural-language-to-report engine and an ML-based Excel column-matching model** over competing roadmap items, partnering with engineering to ship both to production - adopted by **10,000+ users** within **3 months.**
- **Built REST APIs**, enabling real-time data access **and improving reporting efficiency.**
- **Owned end-to-end product delivery for Oracle Cloud ERP (Fusion) and HCM modules** across **5+ enterprise clients**, making the access-control and system-governance decisions that shaped daily workflows for **10,000+ users.**
- **Drove backlog prioritization** using a **Value vs. Effort framework**, tracking adoption metrics that informed **4-6 roadmap decisions per quarter** and lifted feature adoption by **15%.**
- **Managed** stakeholder relationships and executive briefs, **sustaining leadership trust and roadmap alignment.**
- **Ran daily Scrum ceremonies and sprint planning**, converting roadmap priorities into actionable backlog items for engineering, delivering a **30% increase in operational efficiency.**

Research Analyst Intern – PCL

Jun 2024 – Sep 2024

Ahmedabad, Gujarat

- **Enhanced Oracle HCM functionality and configuration**, improving system usability and **efficiency by 30% across 5+ client implementations.**
- **Built** custom OTBI reports, **translating raw HR data into decision-ready insights** for client-specific use cases.
- Coordinated UAT and managed end-to-end data migration for **1,500+ employee records**, ensuring accurate validation of large datasets.
- Drove client collaboration and requirements gathering, **achieving a 95% satisfaction rate across 10,000+ end users.**

SKILLS

Core Competencies: Product Positioning, Market Analysis, User Experience Optimization, Product Development Strategies, Wireframes and Prototyping, Stakeholder Management, A/B Testing, Backlog Prioritization, Scrum Methodology, Agile Methodology, Sprint Planning, User Story Writing, Cross-Team Collaboration, UAT Coordination.

Data & Analytics: SQL, Python, React, JavaScript, REST APIs, Excel, Tableau, Power BI, KPI & Metrics Tracking

Tools & Platforms: Jira, Confluence, Figma, Salesforce, Google Analytics, Lovable

PROJECTS

Spotify: Product Lifecycle Analysis – User segmentation, Business Model Analysis | [Case Study Link](#) **Aug 2026**

- Applied Atlassian's **Product Lifecycle** Management framework to **analyze Spotify's product strategy, business model, and monetization trade-offs**, using public investor disclosures. Identified and prioritized a **monetization opportunity around highly engaged free-tier users**, backed by a validation plan with primary and guardrail metrics before recommending any build.

Fair Share – Product Discovery, Prioritization, Prototyping | [Project Link](#)

Jun 2026

- Identified a gap that competitors deliberately ignored and built a fairness-scoring app to close it — backed by **competitive analysis** and a validated **problem statement**. Prioritized features using **RICE**, then strategically overrode the ranking to protect the product's core value, shipping a self-QA'd **interactive prototype.**

SaaS Spend Visibility PRD – Product Discovery, PRD Writing, Prioritization | [Project Link](#)

May 2026

- Authored an **end-to-end PRD for a B2B SaaS spend-governance platform**, defining the problem statement, three user personas, and a North Star metric balancing governance against buyer autonomy.
